

ABDULLAHI MOHAMED ALI

MERN Stack Developer | React & Node.js

 Mogadishu, Somalia  +252 613 975 914  wizzcabdala9@gmail.com  github.com/Abdall-Moha  Portfolio Website

PROFESSIONAL SUMMARY

Junior MERN Stack Developer with practical experience building responsive full-stack and frontend web applications using React.js, JavaScript, Node.js, Express.js, MongoDB, and Tailwind CSS. Skilled in integrating REST APIs, developing database-driven applications, and crafting clean, user-friendly interfaces. Passionate about solving practical development problems, writing maintainable code, and continuously expanding technical abilities through hands-on project creation.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Figma, Responsive Web Design
Backend:	Node.js, Express.js, REST APIs, FastAPI
Database:	MongoDB, MySQL
Tools & Other:	Git, GitHub, Vercel, REST API Integration

PROJECTS

Inventory Management System

[Live Demo](#) • [Source Code](#)

React Node.js Express.js MongoDB Mongoose Tailwind CSS

- A practical full-stack business management system implementing full CRUD operations, database integration, and backend business logic.
- Features product, sales, invoice, and inventory tracking with dynamic search, filtering, automated reports, dashboard metrics, and role-based access management.

School Management System

[Live Demo](#) • [Source Code](#)

React JavaScript Tailwind CSS Redux LocalStorage

- Interactive React web app demonstrating client-side state management, client-side data persistence, and reusable component patterns.
- Includes student, teacher, user, exam, and attendance management with an intuitive admin dashboard and responsive data tables.

Resumify — CV Builder

[Live Demo](#) • [Source Code](#)

React JavaScript Tailwind CSS LocalStorage

- Dynamic CV builder web application focusing on complex user input handling, form state management, and real-time UI previews.
- Allows users to create, edit, and preview custom resume sections with LocalStorage persistence and responsive design.

TableFlow — Restaurant Website

[Live Demo](#) • [Source Code](#)

React JavaScript Tailwind CSS

- Modern frontend web application focused on responsive component architecture, fast navigation, and clean UX design.
- Presents structured menu listings, restaurant details, and smooth layout adaptability across desktop and mobile devices.

PRACTICAL DEVELOPMENT EXPERIENCE

Independent / Self-Directed Developer

- Built responsive full-stack and frontend web applications using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Engineered custom RESTful APIs, designed database schemas, and integrated frontend clients with backend data streams for CRUD workflows.
- Implemented secure user flows, client/server data validation, dynamic state management, and deployed production builds to Vercel.

EDUCATION

High School Certificate — Imamu Shafi'i Foundation

2017 – 2025

CERTIFICATIONS & TRAINING

- **MERN Stack Development** — Rise Academy (4 Months)
- **Full Stack Development** — SONTAC (2024 – 2025)
- **Mastering Prompt Engineering** — Specialized Training
- **The Future of Software Engineering in the Age of AI** — Specialized Training
- **AI for Entrepreneurship and Freelancing** — Specialized Training
